Performance fee computation to be more aligned to unitholders' interest – but without prescription of the metrics they should use

Single-tier leverage limit of 45%, without requirement for credit rating

Development limit raised from 10% to 25% of a Reit's deposited property

### NOT PASSED

Possible regulatory interventions to impose market discipline on the use of income support arrangements

Disclosure of the pay of individual directors and CEO, and the pay of at least the top five executive officers in bands of S\$250,000 - both on named basis. These will instead be on a comply-or-explain basis
