

The benefits of IT spending for enterprises

A survey was done to find out what benefits were reaped by enterprises when they spent on Infocomm Technology. This was what was found:

Among enterprises that spent on Hardware/Network or Software in the last 12 months, 57% reported reduction in manpower cost by an average of 23%

Among enterprises that spent on IT to develop new products and pilot new technology as well as sent their staff for IT courses in the last 12 months, 64% indicated that IT has reduced operating costs by an average of 21%
