Singapore shares fall pending news of US-Iran diplomacy efforts

SINGAPORE stocks closed lower on Friday (Apr 17), mirroring a broader regional reversal as investors await updates on an extension to the US-Iran ceasefire that ends next Tuesday.

The benchmark Straits Times Index (STI) lost 0.2 per cent or 9.9 points to finish at 4,997.93.

Across the broader market, losers beat gainers 316 to 257, after 1.8 billion securities worth S\$2.1 billion changed hands.

The three local banks ended mixed on Friday.

OCBC rose 0.3 per cent or S\$0.06 to S\$22.72, while DBS finished 0.1 per cent or S\$0.05 lower at S\$57.25 and UOB fell 0.3 per cent or S\$0.12 to S\$37.40.

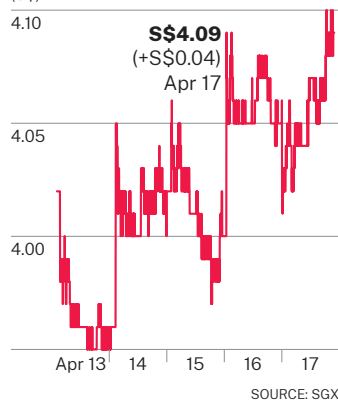

Yangzijiang Shipbuilding led the gainers on Singapore's blue-chip index, rising 1 per cent or S\$0.04 to S\$4.09.

The worst performer among STI constituents was Seatrium, which retreated 1.6 per cent or S\$0.04 to S\$2.42.

Key regional indices were mixed. Hong Kong's Hang Seng Index lost 0.9 per cent, Japan's Nikkei 225 index fell 1.8 per cent and South Korea's Kospi was down 0.6 per cent. Meanwhile, the FTSE Bursa Malaysia

KLCI gained 0.3 per cent.

"There is a growing sense that traders may begin lightening risk into the weekend as the ceasefire clock ticks towards Tuesday," said Stephen Innes, managing partner at SPI Asset Management.

He added that headlines suggesting that negotiations could last for months are "already tempering" market enthusiasm. "Even the most momentum-driven rallies can suffer from exhaustion."

Meanwhile, Nigel Green,

chief executive officer of deVere Group, said: "If a deal materialises this weekend, the rotation across sectors will be swift and decisive."

Noting the rally seen in Asian markets during the week, Green added: "Markets are already moving ahead of the outcome. Investors are positioning for a scenario in which tensions ease, energy flows stabilise, and global growth expectations improve."

Yangzijiang Maritime orders 8 giant oil tankers, sells 4 smaller vessels in twin deals

By Tessa Oh
tessaoh@sph.com.sg

YANGZIJANG Maritime has signed contracts to acquire eight very large crude carrier (VLCC) newbuilds and sell four medium-range tankers.

The group said the transactions demonstrate its "proven capabilities and track record to originate, build, monetise and recycle capital across the maritime value chain".

The eight VLCCs, of about 319,000 deadweight tonnes (DWT) each, will be constructed at a large Chinese shipyard with deliveries staggered across 2028, 2029 and 2030, said the company in a bourse filing on Thursday (Apr 16). The acquisition will be funded through a combination of equity co-investment and debt financing.

Each vessel is built to Phase 3 Energy Efficiency Design Index standards under International Maritime Organization (IMO) regulations and will be fitted with exhaust gas cleaning systems – commonly known as scrubbers. The moves allow the group to remain compliant with the IMO's 0.5 per cent global sulphur cap while retaining the flexibility to burn high-sulphur fuel oil.

On the divestment side, the mainboard-listed company signed contracts to sell four newbuild medium-range tankers of 49,800 DWT each, with deliveries scheduled in 2027 and 2028.

The group said the transactions are expected to contribute positively to its financial performance, subject to completion, delivery schedules and applicable accounting recognition. The group said the sale transactions underscore its ability to generate capital gains through vessel monetisation, amid what it described as supportive industry fundamentals including fleet renewal demand and tightening vessel supply.

"This transaction reflects our disciplined approach in realising capital gains through timely asset monetisation at opportune points in the market cycle," said Ren Yuanlin, executive chairman and chief executive of Yangzijiang Maritime.

Shares of the company closed on Friday S\$0.025 or 3.7 per cent higher at S\$0.70.

Substantial shareholder/director transactions
