

# Up-and-coming airport projects

## Hong Kong

### Sky City, near Hong Kong International Airport

- A development with retail, dining and entertainment, offices and hotels sitting on a 25-hectare site
  - Retail space will cover 350,000 square metres
  - Located next to AsiaWorld-Expo, which offers facilities for conventions, exhibitions and other events
  - To be opened in phases between 2023 and 2027
- 

## Turkey

### Istanbul New Airport

- Operational, but more phases in the works
  - Slated to have a capacity of 200 million passengers by 2027, which would make it the world's biggest airport
  - The airport is expected to cost some US\$11 billion
  - 55,000 square metres of Duty Free shops with seven different concepts
- 

## China

### Beijing Daxing International Airport

- Beijing's second international airport is on track to open in September
  - 700,000 square metres in size
  - Initial passenger capacity of 72 million passengers by 2025, which will eventually be ramped up to 100 million
  - An aviation economic zone is being planned
-
