Singapore shares end flat as Democrats win in US midterm elections

Across the broader market, gainers outnumber losers 392 to 198

SINGAPORE stocks ended almost flat on Wednesday (Nov 4) as the Democrats took control of both houses of Congress in the US midterm elections.

The benchmark Straits Times Index (STI) inched down 0.01 per cent or 0.66 point to finish at 5,268.63.

DFI Retail Group led the gainers on Singapore's blue-chip index, rising 6.2 per cent or US$0.22 to US$3.75.

The worst performer among STI constituents was UOB, which fell 5 per cent or S$2.02 to S$38.44.

This came after the lender's Q3 net profit of S$1.25 billion missed the S$1.38 billion consensus forecast among six analysts polled by Bloomberg.

The other two local banks also ended lower. DBS lost 0.1 per cent to S$70.78 and OCBC fell 0.2 per cent to S$27.85.

Within the iEdge Singapore Next 50 Index, CSE Global was the top gainer, rising 9.3 per cent or S$0.085 to S$1.00, while First Resources was the biggest decliner, falling 4.7 per cent or S$0.14 to S$2.87.

Across the broader market, gainers outnumbered losers 392 to 198, after 1.3 billion securities worth S$2.9 billion changed hands.

The US' midterm election saw Democrats scoring sweeping victories that reached deep into Republican strongholds.
PHOTO: REUTERS

Key regional indices were mixed on Wednesday.

Hong Kong's Hang Seng Index gained 1.7 per cent, and South Korea's Kospi was up 0.6 per cent.

Meanwhile, Japan's Nikkei 225 fell 1.4 per cent, and the FTSE Bursa Malaysia KLCI declined 0.3 per cent.

The US' midterm election saw Democrats scoring sweeping victories that reached deep into Republican strongholds.

Saxo's UK investor strategist Neil Wilson said: "I see this set of midterms as likely a clearing event that the market will digest and use to propel into a year-end rally. It removes a major overhang for policy."

US dollar loses ground; euro and sterling gain

A SWEEPING victory by Democrats in the US midterm elections sent the greenback lower on Wednesday (Nov 4), as investors weighed the prospect of tighter artificial intelligence regulation and its potential drag on economic growth.

Several major currencies gained versus the dollar, with the euro and sterling trading at their highest levels in nearly two weeks and seven weeks, respectively.

Democrats captured majorities in both the Senate and the House, even prevailing in states that have long been conservative bastions, stoking fears that opposition to data centres may gather fresh momentum.

That also raised concerns about the potential hit to the US economy, given how much US growth has been tied to AI-related spending.

A slowdown in growth could dampen the dollar's appeal and reduce the need for interest rate hikes, which typically support a currency.

The dollar index, which measures the US currency against a basket of six peers, fell to a one-month low and was last trading at 101.39.

Still, George Vessey, lead FX and macro strategist at Convera, noted that "investors increasingly appear to be viewing the election outcome as a constraint on future policy rather than a fundamental challenge to the broader US growth story".

"The so-called 'blue wave' has checked the dollar's advance," he added. "Whether the move develops into a more sustained period of dollar weakness will likely depend less on politics and more on whether softer yields, a cooling AI trade and incoming economic data begin to challenge the narrative of continued US exceptionalism."

The euro and sterling are trading at their highest levels in nearly two weeks and seven weeks, respectively.
PHOTO: REUTERS

The euro gained 0.53 per cent to US$1.1251, while the British pound rose 0.55 per cent to US$1.3485.

The yen and the Swiss franc, both safe-haven currencies, were also stronger. Against the Swiss franc, the dollar weakened 0.44 per cent to 0.8169. It fell 0.17 per cent against the yen, to 158.43 per dollar.

The 10-year Treasury yield dropped 1.7 basis points to 4.933 per cent.

"The price action is consistent with concerns about greater scrutiny of AI, and that is reflected in the underperformance of the Nasdaq and worries about US growth should AI face greater regulation," said Sim Moh Siong, currency strategist at OCBC.

But he also noted that "even in the event of a Democratic sweep, it is still difficult to pass legislation at the federal level, given the high hurdle" under US President Donald Trump, who holds veto power.

China's offshore yuan was flat at 6.6711 per dollar, after suffering its biggest one-day drop since May 15 on Tuesday, when the People's Bank of China raised the amount of foreign currency that financial institutions must hold in reserve in a move to slow the yuan's rally.

Bitcoin crept higher to US$78,581.91. The cryptocurrency has been under pressure in recent days after a record US$6.3 billion heist at Binance. REUTERS
